EXECUTIVE SUMMARY

B.Tech Artificial Intelligence and Data Science student with hands-on experience in Python, Java, Machine Learning, Data Analytics, and Full Stack Development. Skilled in developing real-world applications using modern technologies and solving problems through efficient programming and AI-driven solutions. Experienced in building MERN stack applications and working on innovative technology projects. Passionate about software development, artificial intelligence, and data-driven problem solving

KEY PROJECTS

DORMFIX: Smart Hostel Maintenance Workflow Management System

MERN Stack

- Built a comprehensive web application designed to streamline hostel maintenance and utility request workflows
- Empowered students to seamlessly raise maintenance complaints and track their real-time resolution progress
- Integrated robust administrative panels allowing immediate complaint assignment, prioritization, and automated status updates
- Engineered the full-stack architecture completely utilizing MongoDB, Express.js, React.js, and Node.js

IoT-Based MSand Quality Assurance System

- Designed an IoT-based quality assurance system for on-site assessment of Manufactured Sand (MSand) used in construction applications
- Developed a portable monitoring system using ESP32 with temperature and moisture sensors to analyze MSand condition in real time
- Enabled quick on-site quality evaluation by collecting and monitoring key parameters before construction usage
- Reduced dependency on time-consuming laboratory-based preliminary testing by providing instant field-level insights
- Implemented an IoT approach to improve efficiency, reliability, and decision-making in construction material quality monitoring

EDUCATION

Bachelor of Technology in Artificial Intelligence and Data Science

Nandha Engineering College

📅 05/2027 📍 Erode, Tamil Nadu

Higher Secondary School (12th)

Vivekananda Matriculation Higher Secondary School

📅 04/2023 📍 Erode, Tamil Nadu

TECHNICAL SKILLS

Programming Languages

Python **Java** **SQL** **C++**

Artificial Intelligence and Machine Learning

NumPy **Pandas** **Data Analysis**

Data Visualization

Tableau **Microsoft PowerBI**

Tools & Platforms

Git **VScode** **GitHub**

Database

MySQL **MongoDB**

WORKSHOPS & INTERNSHIPS

Data Analytics Internship

SAN Technovation

Python Programming Workshop

IIT Madras Research Park
